MOVE IN

Saturday, **August 28, 2010, Gate 11** will be open to allow campers on the South lot (Race Track). **NO LINE ON SCHILLER STREET BEFORE 8 A.M.** An Arkansas State Fairgrounds' Security Guard will be put in place to line campers up in the order of arrival. A security guard will be on duty to watch the campers for Saturday, Sunday, Monday and Tuesday. These campers will pay $18.00 a night. Campers will be allowed to go to spots on **Wednesday, September, 1, 2010**, at **6 A.M.** at the rate of $25.00 a day. All horse trailers with sleeping quarters will pay a camping fee ($25.00). Horse equipment trailers if hooked up to electricity or water will pay $11.00 a day.

Anyone that arrives to line up prior to **Friday, August 27, 2010**, at midnight will be held at the gate and go to the back of the line and will be allowed to enter after all the others are in on **Saturday, August 28, 2010.**

Due to a new city rule anyone parking a camper on Schiller Street will be towed to Impound.

Horses will move in on **Wednesday, September 1, 2010** through the front gate.

ARKANSAS STATE HORSE SHOW
CAMPERS – TACK TRAILERS – VEHICLES
(2010)

1. **CAMPERS**
   A. Campers will pay $25.00 per night per space used.
   B. All campers will park in areas designated on map with proper number per area.
   C. Campers will plug into ***red outlets only*** – these are marked to run campers.
   D. No campers are allowed to plug into outlets on or in the barns or buildings.
   E. All campers must use the following type of cords only (SEE Electrical Requirements Sheet). If cord does not meet these specs or is not in good shape, do not bring it.
   F. You cannot run a cord from red outlet (supply) then add 5 more cords to the end. There is not enough power to do that.
   G. All of the above items will be monitored by the ALSA security staff. Anyone caught not following the rules will be asked to unplug and not use the facilities.

2. **TACK TRAILERS**
   A. Tack trailers will be allowed to plug into the ***blue outlets*** on the outside of barns only. Rate will be $15.00 per day.
   B. These trailers must be in area designated on the map for this usage only.
   C. These trailers must also use the same type of cords set aside in 1:E above.

3. **VEHICLES**
   A. All vehicles must not be parked in roadways or fire lanes at anytime.
   B. Any vehicle having to be towed may be picked up at compound in front of the Hall of Industry for a fee.
   C. No four wheelers, mopeds or golf carts will be allowed on fairgrounds.

4. **MISCELLANEOUS NOTES:**
   A. All purpose outlets inside barns are for use in the buildings only.
   B. All power outlets on outside of buildings (red) or (blue) are for camper and tack trailer use only.
   C. Remember one power outlet will only run so many items at once, so be more careful of what you try to run off of a single (110V) outlet.

Thank you,

Operations Manager

ELECTRICAL CORD REQUIREMENTS FOR STATE HORSE SHOW

110 Volt outlet for Tack Trailers – Cord must be a #12 Gauge Heavy Duty cord, 3 wire grounded connector on each end. Ground **MUST BE** attached.

110 Volt for Campers – Cord must be #10 Gauge Heavy Duty cord, 3 wire grounded connector where not hard wired into trailer. Ground **MUST BE** attached. The proper UL listed adapter must be used when adapting to different plugs.

220 Volt outlet for Campers – Cord must be a #8 Gauge Heavy Duty cord, 4 wire grounded connector where not hardwired into trailer. Ground **MUST BE** attached. The proper UL listed adapter must be used when adapting to different plugs.

All Cords – **MUST BE** in good condition, no tape, electrical joints, or additions to cord in anyway. Maximum length of cord should be 100 feet. Most outlets are within 50 feet or less of all camping spots. If cord used is longer than the distance to the outlet, it must be laid out, not left rolled up in or under the camper.

State Fairgrounds electrician has final say in all cord connections.

Thank you,

Fairgrounds' Electrician
